PROJECTS

Omni | NERD Stack, React Native, A-Frame, Victory, CSS3
Dream journal app that analyzes sentiment and produces 3D/VR representation of dream.

[@github.com/omni-project](https://github.com/omni-project) | omni-project.herokuapp.com

- Produced visualizations of sleep data for web and mobile, using Victory.js charting library.
- Implemented journal entry functionality for web and mobile.
- Made key styling decisions as lead frontend designer.
- Edited 3D models and defined VR components and animations.
- Collaborated with team to create algorithm that transforms sentiment analysis data into creative, 3D representations.

react-dynamic-UI | CSS3, HTML5, React.js, Node.js

UI toolkit for React.js offering components with built-in animation.

[@github.com/chloehwang/react-dynamic-UI](https://github.com/chloehwang/react-dynamic-UI) | rdi-demo.herokuapp.com

- Won Grace Hopper's Hackathon Best Design/UI Award.
- Created UI library that natively implements React patterns.
- Components animate on user interaction, e.g. scroll and hover.
- Designed to be modular and unopinionated, with flexible styling capabilities.
- Published on npm as node module.

Macbox | NERD Stack, React-Redux, CSS3, Mocha, Chai

Prototype e-commerce platform

[@github.com/chloehwang/macbox](https://github.com/chloehwang/macbox) | macbox.herokuapp.com

- Defined database schemas and associations, including asynchronous calls in hooks.
- Created pages for all products, single product, category, cart, checkout, and wish list.
- Developed cart functionalities for authenticated and unauthenticated users.
- Implemented Facebook and Google OAuth login.
- Styled site and animated using ReactTransitionGroup and GSAP.

EXPERIENCE

Fundraising Manager, ecoAmerica

Washington, D.C. (Dec 2014-Dec 2016)

- Oversaw production of a grant report, letters of inquiry, and extensive proposal within 6 weeks time. As a result, secured \$3M grant as part of two-person team.
- Managed portfolio of 150+ fundraising prospects.
- Led implementation of Salesforce database and became power user for organization.
- Defined and codified workflow systems and processes for newly-formed team.
